

# Visit Us this Spring

Our enrichment activities are in full bloom this spring.

## World at Their Fingertips

Our everyday learning program, The World at Their Fingertips, creates developmental, cultural, and individually appropriate learning environments that empower children to become confident, successful, lifelong learners.

## Spring 2010 Activities

### Signs of Spring - Monday, March 29

Children will become photographers for a day! We will take a walk around town and children will take pictures of signs of spring and create their own photo album.

### Kite Flying - Wednesday, March 31

March is a great month for kite flying! Children will use their creativity to design their own kites and fly them in a nearby park.

### All about Cherry Blossoms - Friday April 2

Spring is cherry blossom season! This will be a great opportunity for the children to learn more about the history of the cherry blossoms and some of the special festivities associated with the special trees.

### Scavenger Hunt - Monday, April 5

We will go on a search for landmarks and sights in downtown DC. This will give children the opportunity to take a tour of the city while doing a fun learning activity!

### Spring Gardens - Friday, April 9

We will plant and cultivate our own class garden. Children will learn about plant life and what is needed to cultivate and grow their very own garden.

### Backyard Science - Friday, April 16

Explore and experiment with different subjects including weather, biology, and environmental issues with simple science experiments.
