

# Visit Us this Spring

Our enrichment activities are in full bloom this Spring.

## World at Their Fingertips

Our everyday learning program, *The World at Their Fingertips*, creates developmental, cultural, and individually appropriate learning environments that empower children to become confident, successful, lifelong learners.

## Spring 2010 Activities

### April - Wet, Wild and Windy

Join us for nutty nature activities as we explore with water and wind. Children will fill and spill in the water table, wind their way through water mazes, and create water tornadoes. They will experiment with the affects of wind as they create and fly kites, have straw races, and make feathers fly.

### May - Watch Me Grow!

Hopefully April showers are bringing May flowers so the children can have fun creating and exploring a jungle of growing plants. They will get down and dirty in soil and seeds as they witness things grow (both plants and the children themselves!).

### June - Mr. Sun, Sun, Mr. Golden Sun...

Won't you shine down on me. Sunny days mean happy times and The Citi Children's Center is celebrating with wild and wacky activities. Join us for mix and match day, freaky freezy drinks, daffy dog day, and other loony activities.
