

# Drop the Spoon

## Learning Value:

This activity encourages children to use their senses to explore and interact with household utensils. Very young children gain information about the world through sensory exploration

## Materials Needed:

- ▶ Extra spoon

## Participants:

This activity is intended for adult/child interaction.

## Directions:

- ▶ **Step 1:** Let your infant hold a spoon while you are using another spoon to feed them.
- ▶ **Step 2:** If they drop the spoon on the floor you can broadcast that they dropped the spoon and it made a noise and now it is dirty.
- ▶ **Step 3:** If you have time, wash the spoon off and give it back to your child or give them a clean spoon so they can experiment with cause and effect over and over

Bright Horizons.

**World** *at Home*
