Book recommendations to help your child spark a lifelong love of reading

Featured Book of Excellence

Let's Make Music

Written by Alexandra Penfold, Illustrated by Suzanne Kaufman
Infants and Toddlers

Let's Make Music is a beautifully colorful story that celebrates rhythm, sound, and creating music. The diverse illustrations burst with bright colors, and the rhythmic language and variety of onomatopoeia make for a very engaging read. The story encourages active participation and gross motor movement from children as they learn more about the joy of creativity within music. This book is an excellent choice to discover more about how everyone can make music in their own unique and different ways!
