Book recommendations to help your child spark a lifelong love of reading

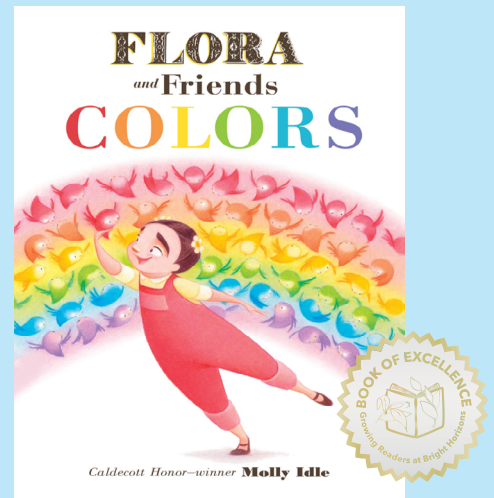

Featured Book of Excellence

Flora and Friends Colors

Written and Illustrated by Molly Idle

Infants and Toddlers

Flora and Friends Colors by Molly Idle is a gentle and engaging introduction to colors for young children. With minimal text, the book invites readers to observe and name colors alongside Flora. The soft, expressive illustrations encourage the idea of color mixing as colors overlap and change in simple, visual ways. This board book includes engaging elements with flaps to open throughout, as Flora creates a rainbow. This is a great choice to explore early artistic themes through shared reading.
